L2M Architects Lands New Project with Baltimore's JBL Real Estate

BALTIMORE – August 18, 2008 – L2M Inc., a nationally recognized architecture and foodservice design group with expertise in retail, travel & leisure and health care design has been hired by JBL Real Estate to design a new commercial building in the Hampden neighborhood of Baltimore.

L2M joined with JBL, a full-service, vertically-integrated real estate firm active in development, adaptive reuse, property management and leasing in Baltimore, to design a space along Falls Road. The building that currently sits on the site at 3801 Falls Road will be demolished to make way for the new 8,000-square-foot, two-story building that will be leased as restaurant, retail and office space.

“Aligning L2M’s strategic design method with the goal of this project – to take an existing site and turn it into serviceable city space – was a task we eagerly took on,” said Jeffrey Mahler, L2M principal and co-founder. “Collaborating with JBL allows us to create innovative space with a purpose rooted in improving the Baltimore community.”

“When selecting an architecture firm, we view them as an extension of our team,” said JBL Real Estate Partner Jeffrey Landsman. “We chose L2M because of their expertise in commercial retail design and reputation in the industry. They’re large enough to fulfill our needs, while still small enough to make sure no detail is overlooked.”

With the design process underway, construction is scheduled to begin in October 2008. For more information about L2M, including services and project profiles, visit www.L2M.com.

About L2M:

Headquartered in Baltimore, L2M is a full-service, nationally recognized architecture firm with advanced expertise in retail, health care, travel & leisure and foodservice design. Emphasizing innovation by collaboration, our skilled team of architects, project managers and designers create beautiful, functional design solutions that respect each client’s vision, timeline and budget.
